

$$-9 + -6 =$$

$$-9 + 6 =$$

Write the sign for each answer in each box
There should be 2 answers per box.

$$-6 - 9 =$$

$$-6 - (-9) =$$

$$-6 \times -9 =$$

$$-6 \times 9 =$$

$$-6 \div -9 =$$

$$-6 \div 9 =$$

Integer Rules are the same for
Rational Number:

$$\left(-\frac{a}{b}\right) + \frac{a}{b} = \sim$$

$$\left(-\frac{a}{b}\right) + \left(-\frac{a}{b}\right) = \sim$$

$$\left(-\frac{a}{b}\right) - \frac{a}{b} = \sim$$

$$\left(-\frac{a}{b}\right) - \left(-\frac{a}{b}\right) = \sim$$

$$\left(-\frac{a}{b}\right) \times \frac{a}{b} = \sim$$

$$\left(-\frac{a}{b}\right) \times \left(-\frac{a}{b}\right) = +$$

$$\left(-\frac{a}{b}\right) \div \frac{a}{b} = \sim$$

$$\left(-\frac{a}{b}\right) \div \left(-\frac{a}{b}\right) = +$$
